

HARMONY PET CLINIC

where pets feel at home

We've learned that pets feel better where they feel at home. So we've created a cheery, roomy, quiet and comfortable environment that makes each visit a pleasure. Plus, our staff is comprised entirely of pet owners dedicated to giving your four-legged friends the same

patient encouragement and loving attention they give their own. Most important, our team supports the human-pet bond by listening, observing and offering suggestions to help you interact more successfully with your dog or cat. The name says it all: Harmony!

Harmony offers the best of everything for your pet including:

veterinary hospital • doggy day care • boarding
grooming • pet products
