HAWS was born from visionaries who recognized the importance of animals and elevated them in our community. Since 1965, HAWS has worked with our community to embrace the human-animal bond. No question we're all better for it.

Direct Line

By Maggie Tate-Techtmann, Executive Director

HAWS' mission is to lead the community in animal welfare and assure sanctuary for animals in need. In the 1960s a group of community members saw a need - to lead, to ensure shelter for animals, give them care, and find them homes. Born out of this need and our founders' passion and commitment, HAWS was incorporated in 1965.

Much has changed since then, but the spirit of our founders and community remains the same. Over the years, HAWS has listened and responded to the needs of pets and their people, redefining and rethinking what animal sheltering can and should be.

As needs emerged over the years, HAWS added a training and behavior department to support both pets in the community and those in the shelter preparing for adoption. A spay and neuter clinic was opened, now performing over 7,500 procedures annually for pets awaiting their forever homes at the shelter and animals already living in forever homes. Several programs support the outdoor cats in our community. Education programs encourage youth to lean into their love of animals and practice the skills of compassion, empathy and responsibility. The incredible 77-acre HAWS Schallock Center for Animals is home to goats and horses, equine education programs, summer camps, school field trips, a private dog park and dog dock, animal enrichment and education opportunities.

It's been a busy 60 years! If you've ever witnessed a shutdown animal begin to wag its tail, seek comfort from you, or make biscuits on your lap while purring, you'll agree that every second has been, without a doubt, worth its weight in diamonds. There is immense value in the human-animal bond; sixty years ago, visionaries recognized this and started something amazing.

Since 1965, HAWS has seen five expansions to its now-bustling footprint, and every nook and cranny is dedicated to supporting our community. In these spaces you'll find the spirit of our founders in our staff and volunteers - as they stop to toss treats to a dog, prepare salad greens for small animals, socialize a cat, run a dog playgroup, witness the happiest goodbyes when a pet finds its forever home, and give endless support when the days are difficult. A tie binds us to each other across generations and history: a true love and compassion for animals.

I am proud to be part of an organization with such a rich history and dedicated founders, volunteers, staff and wide-ranging partners. Together, we've grown a humane community, and we'll continue to do so for years to come. True to our founder's spirit, we're committed to continuing to listen to needs in our community and supporting pets and their people. Cheers to an incredible 60 years! 🐾

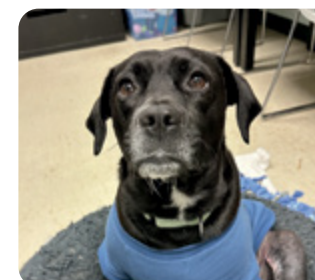

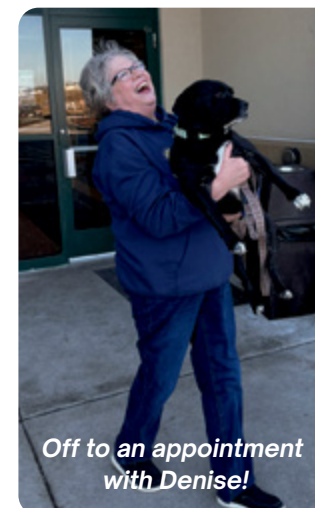

Beyond Basic Training

In the summer of 2009, HAWS' Behavior department was created, tasked to go beyond simple training and classes for the public to also improving the lives of dogs both in our care and those adopted to our community. We knew getting the most out of our pets would happen through enhanced shelter enrichment practices.

What animals do and why they do it is important in understanding our relationships with each other. Our Behavior team continually seeks out general animal behavior knowledge as well as more in-depth information regarding dog behavior. That greater knowledge allows us to do all the right things to send home the best possible pet with our adopters.

Today our behavior staff and volunteers are tasked with learning more about each pet in our care and providing them with the mental and physical enrichment they need. They counsel prospective adopters on what to expect and how to prepare. Owners of pets (whether they are HAWS' alumni or not!) can take advantage of 1:1 consults to focus on particular concerns. We've curated a wide-range of training classes, as well as seminars and education opportunities for animal welfare professionals and the general community.

Sophia N., who leads our K9 Task Force, says it's not just about what we've done, but where we can grow: "We have accomplished working with reactive dogs, initiating playgroups and utilizing medical interventions to support behaviors. In the future, my hope is to help families who adopt from HAWS to apply the techniques the shelter dogs have been trained with to ensure their success in their new home." 🐾

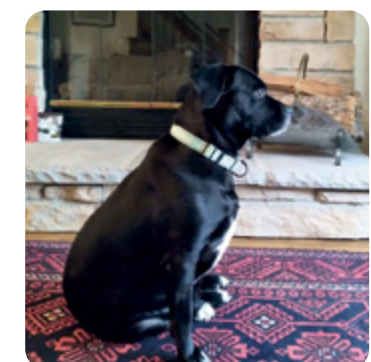

All for Ebony

Ebony, an adult mixed breed, lived in HAWS' Behavior department office for several weeks in early 2025, after a surgical procedure similar to ACL surgery in humans. Staff and volunteers did hot and cold compresses on her surgical sight, as well as various physical therapy exercises and short walks. While rehabbing in the shelter environment wasn't ideal, Ebony was always her super-sweet self, enjoying belly rubs and cuddling. She was perfectly content as long as she had a bully stick and her big comfy bed. At her check-ups with veterinarian Dr. Dzika, he felt the staff did a great job with Ebony, and was confident in ruling out surgery on her other knee!

In mid-February Ebony headed to foster care with one of HAWS' training class instructors, Roxane, with the goals of continuing rehab and learning new things. Roxane quickly found that Ebony likes people and is a very content, laid back pup! Together they reinforced basic manners and building confidence in new environments.

HAWS' staff and volunteers have worked diligently to ensure Ebony can live a full life, where she can enjoy quiet times being the cuddly couch potato she is. Ebony will need to maintain a regular, low-impact exercise routine but is destined for a very normal life in her furever home! 🐾

BEHAVIOR DEPARTMENT HIGHLIGHTS

hawspets.org/training-behavior

Get Involved!

🐾 **HAWS' Mod Squad team** is still in need of more volunteers who have a passion and love to help support dogs. No need to already be an expert - we're really good at training!

🐾 Are calm walks impossible, due to your dog barking or lunging at other dogs? You're not alone. This behavior, known as reactivity, affects 1 in 3 dogs and their humans. HAWS is here to help! Our latest **Reactive Rover** class starts on May 4th, and registration is now open.

Learn more at
hawspets.org/training-behavior.

“Having a Behavior department means supporting more dogs and being able to provide them with what they need while they are in the shelter and going through all their difficult transitions.”
- Sophia N., K9 Task Force

After several years of dedicated volunteers meeting, planning and advocating, HAWS is granted incorporation in 1965.

1960s

Fundraising for a facility ramps up! Through community generosity and teamwork, HAWS' first shelter opens in 1969.

CHEERS TO 60 YEARS!

By Jennifer Smieja, Communications Specialist

It's comforting to know that these animals have a safe, cozy place to call home, even if it's just temporary. I also think about the kindness the staff shows to each animal. It's wonderful to still be here and to be a part of HAWS after all these years.
- Dottie H., Volunteer

For 60 years, the Friends of HAWS have contributed to the financial stability of HAWS through our outreach in the community, by leading the way in fundraising events which offer support to HAWS programs and animals, becoming community ambassadors for HAWS over the years, formulating lasting friendships with staff, volunteers and the pets in the shelter, providing an outlet to help hurting hearts.
- Sandy H., Friends of HAWS

In 1982, the Friends of HAWS host the first Pet Walkathon, a large-scale annual fundraiser that continues to this day as HAWSfest.

1980s

While day-to-day animal care is primarily handled by volunteers, several paid staff members are hired to coordinate kennel and building operations.

Increased demand leads to facility expansions in 1973 and 1979, to add kennel space and an activity room for training classes.

1970s

HAWS has always been an organization filled with individuals who were passionate about animals. This passion has continued to keep HAWS leading the community in animal welfare. From the animals that have found refuge to the people who have found community, I hope for another strong 60 years for humans and animals alike.
- Jessica P., Shelter team

What I gained from HAWS is so much more than what I expected. Being part of the kennel team allows me to work so closely with the animals, and I love the bonds that can be made. It is so rewarding seeing animals that you've grown so close to find their forever home.
- Autumn K., Animal Care team

1990s

Here we grow again with another shelter expansion in 1991!

Community education becomes a priority, including school visits, pet therapy encounters and public speaking engagements at local business clubs and organizations.

An unprecedented decade of growth for HAWS welcomes the SNIP spay/neuter clinic, full summers of youth day camps and a behavior department!

The shelter itself doubles in size, with separate areas now dedicated to dogs, cats and small animals. The lobby, intake and adoption areas are re-imagined and enlarged.

2000s

It is amazing how we have achieved the status of No Kill, through programs, resources and community involvement! We are able to provide medical care that wasn't even a discussion years ago. I am so glad and proud that I have been able to be a part of helping each and every animal that has come our way for help, one way or another.
- Kim K., Shelter team

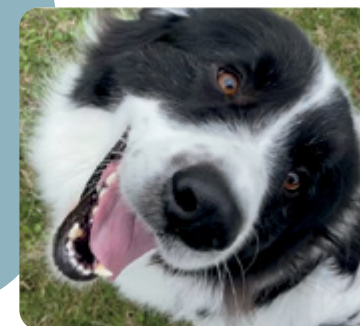

2010s

Through strength of programs and humane education, HAWS announces in 2017 that a goal has been reached: we are a No-Kill Community! Partnerships allow us to conduct life-saving transports and give area shelters assistance as well.

Happy Tails: an Evening to Benefit HAWS becomes our most-successful annual fundraiser, bringing in well over \$100,000!

60 years of HAWS means 60 years of making our community a better place for everyone. Whether you walk, wag or wiggle, HAWS is here to educate and support.
- Jackie O., Schallock Center team

I am very grateful that HAWS has been able to grow to include so many programs that not only help pets adjust to a new home but also teach people the skills they need to keep their pets in their homes. I hope HAWS is able to continue to find new ways to support our community and their pets!
- Sofia P., Outreach team

Celebrating 60 years of HAWS means honoring the progress we've made in understanding and supporting animal behavior while looking ahead to even greater advancements in training, enrichment, and behavior modification. Throughout our 60 years, we have been able to enhance and make the lives of many shelter pets better.
- Sophia N., Behavior team

Save the date for our special 60th Anniversary Open House on Saturday, July 26th! Learn even more and walk through the history of HAWS.

2020s

The HAWS Schallock Center for Animals opens on the former homestead of two of our founders, giving HAWS a unique new facility to grow our humane education and animal training efforts - including equine education programs for all ages!

ELI

We adopted Eli seven years ago. He was a cat like no other! It took two days before he was ready to deal with potential adopters. Once we really got to see him we knew he needed to come home with us! In March he turned 14. He still gets his attitude sometimes but we love him! We wouldn't change a thing!

- The Schumachers

JAX

My daughter had her birthday party at HAWS in January 2024. Jax was one of the pets brought out for the "meet and greet." He was so patient and gentle with all the kids, and just the sweetest dog. We came back for him the day after the party and it was the best decision. It feels like he's always been part of the family. Even though he's almost eight years old, he's still super energetic for walks and when he wants to play. Otherwise he just wants to snuggle with whoever is available. He's the best boy!

- Sara L.

BEASLEY

We adopted Beasley, formerly known as Josh, in April of 2018. It was the greatest decision, he is the best little doggie we have ever had. Beasley is now 7 years old, always the talk of the family, and loved by everyone. He is dedicated to going on walks, playing with his toys, and hanging out with his cousins, Feta and Pita, also adopted from HAWS. We just love Beasley so much, and can't imagine our life or household without him! It was like getting a 2-for-1 deal; (his coat) has a summer look and a winter look, both adorable! Thank you for everything!

- Dena and Terry H.

COCO

Coco's first owner died, and at her second home she did not adjust well to the younger kids and hid, so her mom gave her up because she knew Coco deserved a better life. I would like her to know how happy and healthy Coco is! Sometimes she just plops down in front of you and rolls over for a belly or a back rub. We still haven't held her very long or often, but she does snuggle and sleeps with us. Coco is thriving, happy and very spoiled. I know it was hard to give her up, but we thank you for the gift.

She has made our family complete.

- Katherine M.

FOSTER TO ADOPT!

ADOPTION STORIES

hawspets.org/adopt

VELA

Vela was adopted from HAWS in July 2005: She will turn 20 years old this May! Vela is the best cat anyone could ask for, and despite her older age, she's a happy and healthy girl (definitely still a kitten at heart). Vela spent many years living in Waukesha and now resides in Phoenix, AZ, where she enjoys basking in the sun, cuddling with her humans, and supervising her parakeet brothers!

Thank you HAWS for giving us the gift of such a wonderful companion all those years ago!

- Sophy S.

MONTY

Since joining our family in 2020, Monty has thrived and absolutely loves hiking, kayaking, and exploring national parks. We joined an American Schutzhund group, where Monty enjoys working on his obedience skills. He's super food motivated and loves showing off his tricks for treats! Every night, we make sure to have our cuddle time on the couch, which we all cherish. Monty has truly changed our lives and opened up a world of dog sports we never knew existed. Thank you, HAWS, for helping us find our best friend!

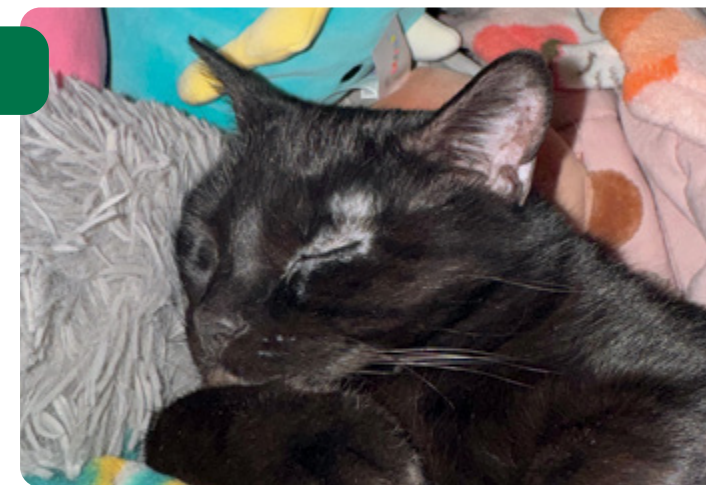

- Regan & Ryan D.

TUBBY

On a brisk October day, Tuffy, now Tubby, entered our family. Not only is she the most easy-going and friendly feline friend you'll meet but she serves an even more honorable service as an emotional support cat. While Tubby keeps us grounded, we keep her weight in check in return! (She will never let you forget when it's time for meals!) Tubby loves food, butt scratches, getting brushed, playing with her laser, and spending time with us! Thanks to HAWS for looking after Tubs until she found her forever home, with our family with all the toys and love she could ever want.

- Emma W.

HERMAN

This is Herman (fka Hermes). I am having so much fun in my home – I'm loving life. I live mainly with my big sister Miesha, a greyhound. My mom dog-sits so I have these two little/big brothers that come over. Plus, I have so many best friends that come over to play. I go to doggy day care, too! I am really well trained and know how to place, heal, sit, shake, wait, lay down, and so much more. I am the most handsome dog ever. Everyone needs a Herman in their life. Thanks to all my friends who loved me while I was at the shelter!

- As told to Renee C.

EDUCATION DEPARTMENT HIGHLIGHTS

hawspets.org/humane-education

Cheers to Summer Camp!

HAWS' Education team has grown from one individual making scattered public visits to an entire team of humane educators! With this inspired group we are able to provide programs at our two facilities and in the community. We have a regular schedule of Hannah's Haven reading encounters, No More Bullying sessions and more...all accompanied by a furry friend.

There is still time to register for one of HAWS' most amazing programs, Summer Camp! We know your child will love spending the day at our Waukesha shelter or the HAWS Schallock Center for Animals in Delafield. Why are we sure of this? How about testimonials from our past campers and their families?! Check out what they have told us below the pictures to the right.

We have a variety of new camp offerings this year, including Advanced Gone to the Dogs and Advanced Horse Camp, for those who have previously attended our camps and are looking to grow their skills. Be sure to surf to hawspets.org/camp for all camp information and links to register for sessions at either of our locations.

Please note: While Summer Camp enrollment will be open until August 20th for select sessions, don't wait as many weeks fill quickly! The last day of camp is August 26th. And, be sure to keep an eye out for the opening of Fall/Winter programs registration in July. 🐾

For the Education Team, 60 Years of HAWS means shaping future leaders using character based curriculum in a fun and engaging way; spreading the word about all things HAWS using the power of animals; and small, bright, smiley faces that grow with our department until they follow their dreams and sometimes end up back at HAWS working alongside us!

- Megan J., Humane Education Manager

"YOU DID AN AMAZING JOB. WE WILL BE BACK FOR MORE CAMPS!"
- JILLIAN H.

"THE KIDS LOVED IT!"
- STEPHANIE F.
"MY DAUGHTER LOVED HORSE CAMP!"
- MARY

SOPHIA P.

KIDS' CORNER

"Sophia has been attending HAWS camp for years, and the Gone to the Dogs session is always the highlight for her. She loves learning dog training and animal care, and the camp's counselors are very supportive and knowledgeable. She's really looking forward to attending again this summer!"
- Mom, Julie P.

We are looking for animal- and kid-loving camp counselors!
Apply online on at hawspets.org/summercampcounselor.

HAWS SCHALLOCK CENTER FOR ANIMALS

hawspets.org/schallockcenter

HAWS Has Horse Power

Spring and Summer 2025 are looking great at the HAWS Schallock Center for Animals. We're excited to enter our fifth season!

This summer the Schallock Center will welcome three temporary resident horses, rather than two as in past years, to provide even more opportunities for the campers that join us for equine programs. Stay tuned to our HAWS Schallock Center for Animals Facebook page to see who our four-legged guests will be.

We are also excited to offer **Horse Powered Reading Camp** this summer! This internationally recognized reading program provides a social/emotional connection to what kids are learning with the use of horses. HAWS hopes to grow this program and offer more Horse Powered Reading opportunities in the near future.

Various props can be a great help with learning during HAWS' programs. At this time, we are seeking donations of gently used or new ball-pit balls along with colorful padded play mat pieces. We would also love a gently used Little Tykes Climbing Gym – the goats have a great time on this type of play set!

Staff member Alexis H. and her horse, Stella, will be saying "happy trails" as they leave for another opportunity closer to home. We'll miss them both and wish them the best in their new adventures. 🐾

Entering HAWS' 60th year means five years of service for the HAWS Schallock Center for Animals! We've been working to provide equine education for almost four years and excited to continue providing fun, engaging equine programs!
- Makayla T., Equine Specialist

HAWS
SCHALLOCK CENTER FOR ANIMALS

Hooves & Flights Friday, June 6th

Beer/wine/appetizers throughout the property. Take a walk and see our beautiful facility!

Registration opens soon - stay tuned.

TEACH, TRAIN & LIVE HUMANE

GET INVOLVED

hawspets.org/volunteer

Exciting Opportunities Ahead!

At HAWS, we're always on the lookout for passionate individuals to join our incredible volunteer community. As we head into spring and summer, there are even more ways to get involved!

Join us in the Community

Not only do we need volunteers to support the day-to-day needs at our shelter, but we're also gearing up for some amazing community events - including helping out at the Harley-Davidson Rally in Oconomowoc this summer. This is your chance to make a difference while having a blast at events throughout the community.

Become a Kennel Advocate

Looking for a meaningful way to make a difference? The Kennel Advocate Program is a fantastic opportunity to get involved and directly support our adoption process.

As a Kennel Advocate, you'll play an important role by assisting potential adopters during their visit. You'll guide them to helpful resources, like adoption applications and information about specific animals, while also facilitating one-on-one interactions between adopters and the animals. You'll also spend time with the animals during quieter moments, getting to know their unique personalities. This helps you match them with the perfect adopter.

This program is about more than just adoptions—it's about building lasting relationships within the community. Kennel Advocates are the heart and soul of the shelter, helping promote adoptions and ensuring that each animal finds the best possible home.

Help us continue our mission to support animals, connecting them with their forever families! **Get in touch at hawspets.org/volunteer.** 🐾

Volunteer Insights: Shirley E.

Small Critter Caregiver,

Mentor for Small Critter Cuddler Orientation, Small Critter Nail Trim Assistant

How long have you been with HAWS?

It will be 12 years in April 2025.

What are some of the biggest changes you've noticed at HAWS?

There are more orientation times available for new volunteers now.

The orientation for Small Critter Cuddlers is offered once a month!

What does HAWS' 60th Anniversary mean to you?

Success! The fact that HAWS has continued to help animals for so many years shows the strong commitment of the staff, volunteers, and the community to caring for these animals and helping them find their 'fur-ever' homes.

What advice would you give to new volunteers?

It takes many caring, willing people to look after both the physical and behavioral needs of the animals at HAWS. But when we work as a team, it brings a great sense of satisfaction and pride when an animal finds its forever home.

No task is unimportant—everything we do helps HAWS continue to meet the needs of the animals in our care!

We have a wide range of opportunities!
Start by visiting hawspets.org/volunteer or
email volunteer@hawspets.org.

Volunteer Insights: Liz P.

I began helping with cats, where I cleaned and sanitized cages, fed the cats, and refreshed their bedding. Now, I help organize treats for the Dog Walkers, sorting them into hard and soft containers. I also separate newspapers for the Small Critter area. I like to think of the mess I make as a work of art, and at the end, I make sure everything is nice and clean.

How long have you been with HAWS?

Over 30 years. And, my favorite part of HAWS is getting to see so many familiar faces over the years.

What are some of the biggest changes you've noticed at HAWS?

There have been so many changes, especially since the building was (expanded). It took me quite a while to figure out which door leads to which area!

What does 60 years of HAWS mean to you?

60 years is a very long time! I'm 62, so HAWS is almost as old as I am! I've been lucky enough to see thousands of animals pass through, even a coatimundi!

What advice would you give to new volunteers?

Be prepared to learn a lot of interesting things about the animals that come in.

Shirley E.

Liz P.

Many Years, Many Thanks

HAWS is forever grateful for the amazing partnerships we have made throughout the years! We have had many organizations return to HAWS again and again for corporate and group volunteering. They have given lots of their time to help us complete projects, around the main shelter and at our Schallock Center for Animals.

"LOVED THIS EVENT! GLAD WE COULD HELP!" – DAWN L.

"IT WAS SO INSPIRING GETTING TO VISIT! CAN'T WAIT TO GET MORE INVOLVED IN THE FUTURE!" – HANNAH W.

As the weather warms, groups will be working on these bigger projects:

- Laying down fresh mulch around our main Waukesha shelter, to make the building fresh for the spring/summer season.
- Re-finishing/re-painting the gazebo at the Schallock Center and cleaning up the pollinator gardens.

Many new organizations have reached out this year, wanting to bring a group of employees to help, and we are excited to welcome them to our family. *To bring your group, contact mackenzie@hawspets.org!* 🐾

COMMUNITY OUTREACH

hawspets.org/community-outreach

Make "Mobile" Memories

As we look ahead to a busy spring through fall, we are excited to welcome new opportunities! Our Mobile team is always open and eager to visit new businesses, events and community gatherings with adoptable animals. We'd love to add you to our schedule.

Looking to host a donation or supply drive for HAWS? We offer a **Donation Pop-In**, which includes a scheduled 30-45 minute visit with an adoptable animal and photo op. We load your collected donations in our van to take back to the shelter with us.

Interested in learning more? Please contact carrie@hawspets.org. 🐾

60 years of HAWS provides the Mobile team with a rich historical fabric to build upon. We have the joy of hearing all of the supporter's wonderful stories regarding their successes with our organization.
- Carrie S., Mobile Adoption Coordinator

HAWS is Grateful for Grant Support!

The Natural Resources Foundation of Wisconsin:

Outdoor humane education field trips at the HAWS Schallock Center for Animals.

The Church & Dwight Employee Giving Fund:

Veterinary costs related to stray and owner-surrendered animals.
